

# HENRY ARCANGELO

[Email](#)[Phone](#)[Paranhos, Porto](#)[Portfolio](#)[GitHub](#)[LinkedIn](#)[CodePen](#)

## ◆ PROFILE

I'm a junior software engineer graduated in Systems Analysis and Development, and currently pursuing a degree in Computer Engineering. I have experience with Node.js, PHP, React, Python, TypeScript, and SQL. Naturally curious and motivated to learn always. I'm a rubik-complexity passionate, I like turning ideas into actual solutions, and automating my daily chores through code. Currently seeking to join a team where I can grow professionally, contribute, and help building amazing projects.

## ◆ PROFESSIONAL EXPERIENCE

### CS Support

Aug. 2024 — Present

Booking.com | Porto, Portugal

- Technical support and assistance to Booking.com partners around the world
- Resolution of operational queries, technical issues, bugs, and incidents related to the platform
- Technical assistance with a focus on agility, clarity, and partner experience

### Mid Fullstack Developer

2023 — 2024

LNA Digital | Home office

- Design and maintenance of management systems and ERP
- Development of responsive web sites and applications
- SEO, branding, and digital presence management for clients

### Hardware Sales & Technician

2022 — 2023

Amatel Distribuidora Ltda. | Santos/SP, Brazil

- B2B sales of technological and electronic equipment such as computers, peripherals, hardware, cameras, electrical tools, network utilities
- Technical repair and equipment maintenance
- Service to local technology companies as a supplier and distributor of electronic equipment

### IT Technician

2020 — 2022

Rei do Trigo | Guarujá/SP, Brazil

- Customer service and support duties
- Development and management of website, digital menus, online delivery, and local software
- Complete technical support and infrastructure maintenance

### Course Instructor

2019 — 2020

Direcional Cursos Ltda | Guarujá/SP, Brazil

- Responsible for 3 certified courses — Basic Computing, Web Programming, Graphic Design
- Teaching Windows fundamentals, HTML/CSS/JS, CorelDRAW, and Adobe Suite

## ◆ PERSONAL PROJECTS

### EVA ★400

AI agent for penetration testing with 400 stars on GitHub. Cybersecurity tool that automates opsec processes, from vulnerability analysis to command execution.

Stack: Python + AI/ML

### NekoGPT

Web interface for NekoAI with interactive chat and Perplexity-powered search, media and document analysis, image generation, and editing.

Stack: TypeScript + React/Nextjs + REST API

### Monex

Full personal finance tracker with login middleware, SMTP password reset, and complete dashboard for incomes, outcomes, recurring payments, and payment status. Statistics visualization, origin management (banks, cash, etc.), and payment categories with filtering and reporting.

Stack: Python + Django + React + SQLite

EmbyControl

Management dashboard for Emby Media Server to manage TV subscriptions — control subscriptions, users, channels, and content access. Complete system for selling and managing streaming subscriptions.

Stack: HTML + PHP + Emby API

Arcangelo API

A RESTful API that provides various services such as AI (GPT-5.2 and others), MCP Tools, TTS generation, image generation and editing, video generation, link and social media downloaders, PDF analysis, games, cybersecurity tools, and more. Over 30 endpoints serving my personal projects.

Stack: Python + Node.js + Cloudflare + Flask

ResumeMe

Resume builder with an easy editor and export to PDF. 48+ languages, 15+ premium templates, live preview, drag-and-drop sections, auto-save, zero backend.

Stack: React + TypeScript + TailwindCSS + Vite

EDUCATION

Bachelor's Degree in Computer Engineering

FMU — Faculdade Metropolitana Unida, Porto  
2025

Technical Degree in Systems Analysis and Development

ETEC Alberto Santos Dumont, Santos/SP, Brazil  
2019

SKILLS

SOFT SKILLS:

Problem solving, Effective communication, Teamwork, Adaptability, Critical thinking, Time management, Proactivity, Creativity, Project management, Scrum
